Functional Knee Techniques

by

GrayInstitute

Presented by Jay Inman, PT

All proceeds from this course will be donated to the Foundation for
 Physical Therapy to raise funds for PT research.

• *Course Overview:*

A new and innovative one day seminar providing participants with essential principles, strategies, and techniques of Applied Functional Science. This seminar encourages direct participation and interaction with instructors and participants to enhance the ability to assess and address client/patient function. During this course you will learn a principle-based approach to facilitate improved functional thresholds.

• *To accomplish the aforementioned, participants will learn:*

- 1) A new functional technique process for the knee complex
- 2) Over 50 new knee techniques for all levels of patient/client function
- 3) The science of "Tweakology" therefore empowering you to expand all techniques into specific application
- 4) An introduction to Knee Functional Manual Reaction®

INAPTA CEU's: 5.0 units
